

Vitaliy Kulesh

Objective	Chief Engineer or Technical Superintendent or Marine Surveyor
Summary of qualifications	Yachts and Small craft Marine Surveyor 1st Class Unlimited Marine Engineer Certificate of Competency (Motor) Canada 2nd Class Marine Engineer Certificate of Competency (Steam) Canada. 1st Class Power Engineer Certificate, Canada. All types of tankers Experience Bachelor's Degree Diploma in Mechanical Engineering. Professional knowledge of Marine Electronics, DP systems, Navigation and Satellite equipment. Naval Automation and Electronics Course. Kongsberg DP Maintenance course Diesel Electric Experience Commissioning/Construction Experience Supervisor of Air/Saturation Dive Technical Team DP3, DP2, DP1 experience High Voltage Safety Course Working knowledge in Failure Mode and Effect Analysis (FMEA) and Failure Mode and Critical Effect Analysis (FMECA). Stationary Refrigeration Certificate. Specialized Hydraulics Training. STCW Basic Safety Training Certificate of Proficiency STCW Survival Craft Certificate of Proficiency STCW Marine Advanced Fire Fighting Certificate of Proficiency STCW Marine Medical Fitness Certificate STCW Marine Advanced First Aid and CPR. Operating Systems: Mac, Linux, MS-DOS, MS Windows XP, Vista, 7, 8, 10 Document Processing: AutoCad 14, MS Office Suite, Adobe Products, Corel Perfect Office, Computer generated Preventive Maintenance and Ordering Programs such as Synex, TM-Master, Safenet, RAST, Amos D. Marine Surveyor
Professional experience	2007 – till present Yachts and Small Craft Marine Surveyor and Director of MARINE CRAFT SURVEY, Whitby, ON, Canada. Worked with a variety of clients to repair damaged vessels, and over the course of business repaired 17 ships that were then capable of going out to sea. Generated reports to submit to customer that details what is wrong with a ship and how much needs to be spent to repair it. Attended test runs of repaired vessels and create progress reports.

Approved vessels for going on voyages once again.
Conducted environment tests to ensure ships are fuel efficient and study their overall impact on the local ecosystem.

Marine Engineer

Jan 2020-present
Chief Engineer, Reformar, QC
In charge of E.R. and Winter maintenance and vessel modifications
Vessel: Coriolis II
Type of Vessel: RV, DP1

Dec.2019 -Sept. 2019
Port Engineer, Zamil Offshore, SA
Technical Management of 7 DSV and ROV vessels.

Sept. 2018-Oct. 2018
MV Spirit of Vancouver Island
Ferry, 4 x MAN 6L40/54
Total propulsive power: 15,954 kW
Brought vessel for LNG Modification from Vancouver, BC to Gdansk, Poland
Horizon Maritime, Halifax NS

July 2015- Aug.2018
Chief Engineer, Zamil Offshore, SA
In charge of Deck, E.R. and Air Dive Technical Departments
Vessel: Zamil 63,
Type of Vessel: DSCV, ROV, DP2
Total Propulsive Power: 7,100 kW; 2 x Wartsila, W8L26B2

Sep. 2013 – July 2015
Chief Engineer, SBM, Monaco
In charge of Deck, E.R. and Air/Sat. Dive Technical Departments
Vessel: SBM Installer, Diesel Electric
Type of Vessel: DSCV, ROV, DP3
Total Propulsive Power: 14,300 kW; Main Engine – 6 x Wartsila

Jan. 2013 – Sep. 2013
Commissioning Chief Engineer, SBM, Monaco
New-built Technical Supervisor at Keppel Singmarine
Deck, E.R. and Sat. Dive Machinery Commissioning.
Vessel: SBM Installer, Diesel Electric
Type of Vessel: DSCV, ROV, DP3
Total Propulsive Power: 14,300 kW; Main Engine – 6 x Wartsila

April. 2010 – Nov. 2012
Chief Engineer, SBM, Monaco
In charge of E.R. and Sat. Dive departments.
Vessel: Dynamic Installer
Type of Vessel: DSV, ROV, DP2
Total Propulsive Power: 6,300 BHP; Main Engine – 2 x Bergen

Dec.2009 - Jan. 2010

Chief Engineer, Maersk, Denmark
Vessel: Maersk Responder
Type of Vessel: Multi Role Construction, ROV, Cable Layer, Survey, DP2
Total 10,440 BHP, Main Engine: 2 x Man B&W driving Alpha CPP

Jan. 2007- Nov. 2009
Chief Engineer, GulMar Offshore Middle East , UAE
Vessel: Gulmar Eagle
Type of Vessel: DSV, DP2
Total Propulsive Power: 6,100 BHP; Main Engine – 2 x MaK

March 2004 – Jan. 2007
Chief Engineer, Gulfmark Offshore , Aberdeen UK
Vessel: Highland Fortress
Type of Vessel: ROV/DSV, DP2
Total Propulsive Power: 7,100 BHP; Main Engine – 2 x Bergen

June 2002 – Feb. 2004

First Engineer, Algosaibi Diving Co. Ltd, Manama, Bahrain
Vessel: Aquanaut
Type of Vessel: DP 2, DSV
Total Propulsive Power: 7300 BHP, Main Engine: 2 x Wartsila 6R32

Vessel: Adams Nomad,
Type of Vessel: DP2, DSV
Total Propulsive Power: 4000 BHP, Main Engine: 2 x Cat 3512

Education

1982 – 1987 Odessa Marine University, Odessa, Ukraine

majoring in Mechanical Engineering and Marine Automation

Georgian College, Owen Sound, Ontario, Canada

1998 Propulsion Plant Simulator Course (Level 2) completed

1999 Marine Emergency Duties C (Officer Course)

1999 Marine Emergency Duties D (Senior Officer Course)

Holland College, Summerside, PEI, Canada

2001 Basic Survival Course (MED A1)

2001 Survival Craft Course (MED B1)

2001 Fire Fighting Course (MED B2)

2001 Marine Advanced First Aid and CPR

Memorial University of Newfoundland, NF, Canada

2000 Inert Gas/Crude Oil Wash Training Course

2002 Advanced Petroleum Tanker Safety Course
Kongsberg Training Center, Halifax, Canada
2014 Kongsberg DP Maintenance Course
